LARGE "CASH" BUYING.

Big Advances in Speculative Shares Due to Covering by the Shorts.

Wall Street, Dec. 19. The movement of securities in to-day's market was erratic and nervous, as could naturally be expected after the panicky conditions of yesterday. On an investment basis many of the active shares in the market are now selling at very inviting prices. It was this view of the case which prompted the buying orders which came from in-siders and from the so-called "gray-beards" who visit Wall Street only after such a serious slump. Shorts became nervous when it was discovered that the Clearing House sheets of the Stock Exchange were passed successfully and that no other failares were pending. Covering by this element in the market again proved to be a lisafety valve, creating a demand which would otherwise have been lacking. There was an unusually large number of "cash" transactions.

The early meeting of the Clearing House Committee of the Associated Banks, at which a pool was formed for the loaning of \$10,000,000 in the market, had an important influence upon the trading. This 217 announcement was like pouring oil upon troubled waters. Money rates dropped off quickly from the 30 per cent which was quoted early in the day. Most of the ac-commodations were made at 6 per cent, and same few at 2 and 4 per cent, the latter being the closing rate. Sterling exchange was easier, although rather nervous, actual rates declining 1/2c. for 60-day bills and 1/3c.

was easier, although rather nervous, actual rates declining \$\frac{1}{2}\cdot\) for 60-day bills and \$\frac{3}{2}\cdot\) cor demand.

With but few exceptions the active shares closed with very pronounced net gains. Those issues which declined were the few in which liquidation had been averted during the crash. A notable example of this was in the Steel Hoop issues. When the antice was weakest in other lines these stocks held strong, and now that the ballace of the list is strong they have declined. Vanderbill buying was very pronounced. Without an exception the group of stocks with which this name is associated showed treat firmness. The highly speculative sames which invited short seling were those virch scored the most sensational recoveries. Of course this was a development which hight have been expected. The greatist advances were sco.ed by Canada Southar, Afchison preferred, Anaconda, Baithore & Ohio issues, American Smelting sues, Steel and Wire Issues, Burlington, a. Paul, Northwest, Rock Island, Omaha, onsolidated Gas, Continental Tobacco issues, Goreral Electric, Federal Steel preferred, Illinois Central, Louisville & Nashdile, Manhattan, Metropolitan, New York central, Northern Pacific issues, People's sas, St. Louis Southwestern preferred, on thern Rallway preferred. Tennessee oal & Iron, Third Avenue, Union Pacific saies, U. S. Leather preferred and Great Sorthern preferred.

MONEY WILL REMAIN AT LEGAL RATE.

Barring unexpected developments, it is now reasonably supposed that the stock market has reached an inviting level for investment in the better class of securities. Conditions in the country at large are unprecedently prosperous. Weak holders of stocks have been forced out, and, although this operation is neither pleasant for the brokers nor the customers who were sacrificed, the general speculative community will be benefited. Inside interests will no doubt attempt to prevent any wild speculation. Probably such action will not be necessary, as so many of the "regulars" have been injured in the break that a new "public" must be created. It is apparent, however, that until after the January disbursements, which will undoubtedly benefit the banks on both sides of the water, any increase in speculation which will foster a demand for

Plans were submitted to the Building Department yesterday for the seven-story brick flat which, as was told exclusively in the Journal on Sunday. David Finelite is to build, at a cost of \$80,000, on the southwest corner of Park row and Baxier street. Two six-story brick flats, with stores, each 25.2 by irregular, and costing \$60,000 together, are to be built at Nos. 266 and 268 Monroe street, by Louis Kohn.

At Nos. 209 and 211 East Elighty-first street Peter Herter will build two six-story brick flats with stores, 25.5x88.7 each, and costing \$56,000 together.

The five-story and basement brick and stone flat which Robert Smith is to built at Nos. 242 and 244 West Thirtieth street will cost \$40,000.

The Board of Trustees of the Madison Avenue Presbyterian Church have submitted plans for the practical rebuilding of the church and the Sunday-school and meeting room building adjoining, at the northeast corner of Madison avenue and Seventy-third street. The improvements, which will cost \$75,000, consist of the adding of a story to the school building and rebuilding the front wall to correspond with the architecture of the church facade; a new gallery carried around the three sides of the church, together with a new organ loft and vestibule; the towers will also be reconstructed and the Seventy-third street entrance will be ellminated and street entrance will be ellminated and street entrance will be ellminated and stained windows substituted. This church building farmerly belonged to the Phillips Memorial Preshyterlan Church, with which the Madison Avenue recently consolidated.
